

TERRA POWER ATTACHMENTS, INC HDB40 HIGH DUMP BUCKET FOR MINI SKID LOADERS

POWER

PERFORMANCE

SIMPLICITY

TERRA Power Attachments HDB4 High Dump Bucket extends the capability of your mini skid steer loader by increasing the dump height and reach of your loader bucket. With the HDB you can load trucks with high sideboards with ease.

The unique design of this bucket actually increases the overall dump height by 2 feet. This increase in height means you can load pickups and other vehicles

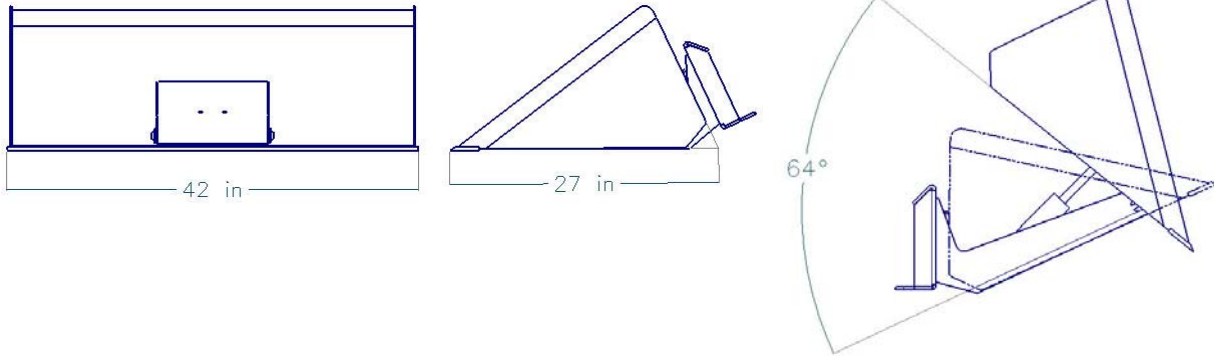

more easily and safely. And with the extended reach, you can backfill trenches more easily and safely than ever.

The bucket body features heavy duty side cutters, a hardened leading edge and single piece wrapper. The lift frame is rigidly designed with 1/4 inch steel and houses a heavy duty lift cylinder.
