## TL30 TILLER ATTACHMENT FOR COMPACT LOADERS

### **POWER**

### **PERFORMANCE**

### **SIMPLICITY**

*TERRA* Power Attachments TL30 is the ultimate in delivering a lot of power in a compact attachment. At less than 36 inches wide it provides easy access to confined work spaces while delivering unmatched productivity.

The TL30 slices through hardpan as easily as topsoil with more horsepower per tine than any other tiller in its class. Its direct drive system eliminates any maintenance concerns associated with chains or sprockets and the heavy duty outboard bearing features a serviceable, sealed and shielded cast iron housing for long life. A fully enclosed housing and hinged spoil guard provide safety while the adjustable side shoes let you till at 3 different depths.

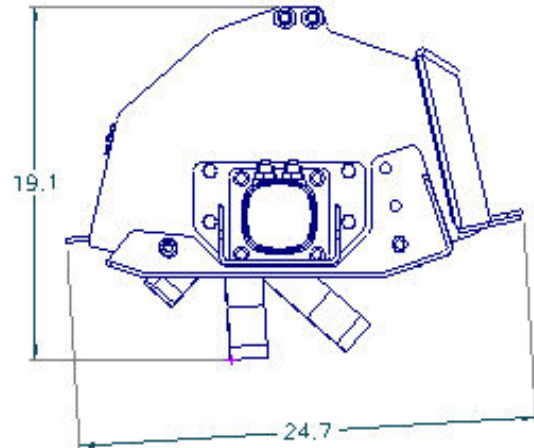

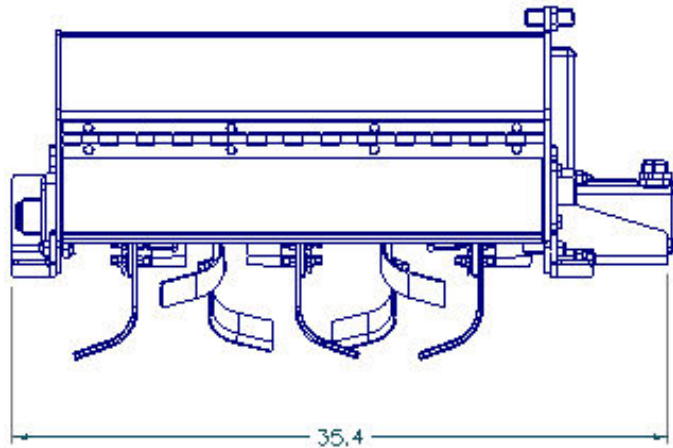

**APPLICATIONS:** Seed bed preparation, soil reclamation and stabilization, terrain leveling, sod removal, soil aeration.

**COMPATIBILITY:** Most compact utility loaders
