TL40 TILLER ATTACHMENT FOR MINI SKID LOADERS

POWER

PERFORMANCE

SIMPLICITY

TERRA Power Attachments TL40 Tiller attachment is the tool contractors need for seed bed preparation or loosening compacted soil around work sites.

Featuring an optimized tine pattern, The TL40 slices through hardpan as easily as topsoil with more horsepower per tine than other models. Its direct drive system eliminates any maintenance concerns associated with chains or sprockets and the outboard bearing features a sealed and shielded cast iron housing for long life. A fully enclosed housing and hinged guard provide safety while the adjustable side shoes let you till at 3 different depths for any application.

The TL40 is a tool that will pay for itself over and over by saving you time and effort in your next landscape or construction job.
